GIOBAGNARA

UPDATE

FEBRUARY 2021 — SEPTEMBER 2020

GIORGIO BAGNARA, FOUNDER AND CEO OF GIOBAGNARA

Born into a family renowned for cultivating for three generations the art of living, Giorgio Bagnara became passionate about his calling at a very early age. In the late Nineties, after noticing that leather from the fashion industry was not considered enough as material for home accessories, he founded GIOBAGNARA with the goal of applying it to a complete collection. Along with his wife, Vanessa, he decided to move his design studios and workshops in the old docks of the Port of Genoa where, surrounded by the essence and beauty of that location, the company took a significant step forward.

GIOBAGNARA

Renowned for its elegant creations that convey luxury without ostentation, GIOBAGNARA adheres to the highest standards of craftsmanship. By pursuing a philosophy that incorporates traditional know-how with leading-edge technologies, and offering a limitless color palette of quality leathers and suede, founder Giorgio Bagnara has been able to experiment and push the technical boundaries of his craft in order to create pieces that are both beautiful and functional.

Launched in 1999, the GIOBAGNARA brand has quickly earned a reputation for expert leather workmanship, and its founder has become a key partner for a large number of interior designers as well as a select group of yacht and private jet designers who rely on his specialized knowledge to realize made-to-measure commissions.

In 2015, Giorgio Bagnara expanded his leather goods portfolio with the acquisition of saddle leather specialist RABITTI1969.

In 2017, Bagnara initiated a collaboration with French designer Stéphane Parmentier, who was appointed creative director of GIOBAGNARA and its affiliate brands.

In 2018, the company's portfolio grew with the strategic acquisition of PIGMENT FRANCE, a respected company with specialized skills in leather covering and the weaving of wicker, rattan and straw.

Today, two decades after its launch, GIOBAGNARA counts more than 60 employees

The brand now boasts an impressive offer of quality leather homewares and is ready to embark on its next exciting chapter.

STRUCTURA TRIPLE GAME BOX CHESS | DRAUGHTS | MUEHLE

Walnut wood structure with sole leather cover featuring an engraved chess and draughts field on one side and a muehle field on the other.

Includes sole leather chess and draughts made in brown (SL09) and natural (SL51) colors.

The box features inner partitions to host the playing pawns.

The design is solid yet light in appearance, while the material projects a vintage look that will age gracefully.

Custom sizes available on request.

CHRONOS WATCH WINDER

Leather-covered structure. It is sufficient to apply a slight pressure to detach the rotating part, which is provided with a watch strap extender.

It works with 2 AA batteries.

Multiple rotation settings: clockwise, counterclockwise or alternating.

Chronos operates on a basis of gentle rotation, ensuring a consistent movement over a longer period of time that won't over-wind one's watch.

SUPERTUSCAN WINE BOTTLE HOLDER

Leather-covered wood structure.
Ideal for both standars and magnum
sized wine bottles.

Other than being a great display for
one's wine, this article works perfectly
as a decanter: as it more than doubles
the surface in contact with air of the
wine inside the bottle, it favors its
oxygenation, allowing it to breathe
and to trigger the release of more
aromatic compounds.

UPDATE

FEBRUARY 2021 — SEPTEMBER 2020

GIORGIO BAGNARA, FOUNDER AND CEO OF GIOBAGNARA

Born into a family renowned for cultivating for three generations the art of living, Giorgio Bagnara became passionate about his calling at a very early age. In the late Nineties, after noticing that leather from the fashion industry was not considered enough as material for home accessories, he founded GIOBAGNARA with the goal of applying it to a complete collection. Along with his wife, Vanessa, he decided to move his design studios and workshops in the old docks of the Port of Genoa where, surrounded by the essence and beauty of that location, the company took a significant step forward.

PIGMENT FRANCE BY GIOBAGNARA

The respected luxury brand PIGMENT FRANCE, which joined the GIOBAGNARA group in January 2018, is a master at enhancing tableware and appliances with different materials such as straw, willow, rattan and, of course, several types of leather, bringing a new luxury to everyday objects.

The pieces presented in the collection pay homage to the creative variety and timeless poetry born from the meticulous craftsmanship of these elements.

Looking to the PIGMENT FRANCE workshop with its expert artisans, GIOBAGNARA aims to preserve and further develop the huge potential of this lifestyle manufacture. French manual skills and craftsmanship shine through in the beauty of its products, heritage and identity. GIOBAGNARA wants to introduce the brand to a more international audience that respects these values.

PIGMENT FRANCE creations live through time, as they represent the combination of industry and talent; the world is fascinated by the products from this land, by the care in the selection of raw materials as well as by the search for top-notch quality and creativity in each and every stage of the production chain.

As John Ruskin once wrote: "Quality is never an accident, it is always the result of high intention, sincere effort, intelligent direction and skillful execution; it represents the wise choice of many alternatives, the cumulative experience of many masters of craftsmanship."

Rattan is a close relative of the palm tree. It is a type of a vine that grows quickly in the jungles of Southeast Asia. It has the shape of a pole, and its diameter varies between one and three inches. It is one of the strongest woods, highly durable and hard to break. The solid core of rattan, along with its vertical grains, is harvested and cut into smaller sections before being steamed and molded into various shapes. PIGMENT FRANCE's rattan is completely hand-dyed and hand-woven by our artisans in northern France.

PIGMENT FRANCE creations in fine willow stand out because of the smaller rods selected to create an extremely fine pattern. The structure is made of rigid willow sticks (the 'stake' material), around which thinner flexible rods are woven (the 'strand' material). By using only Osier (Salix Viminalis), perhaps the most valued of the wild willows, that is locally sourced, we pride ourselves on making a quality, eco-friendly product.

GIOBAGNARA

UPDATE
FEBRUARY 2021 — SEPTEMBER 2020

GIOBAGNARA AND STÉPHANE PARMENTIER

Stéphane Parmentier first met Giorgio Bagnara a few years ago in the aisles of a professional trade show. Enamored of the beauty and the quality of the leathers used, not to mention the meticulous attention to detail evident in each piece, he regularly contacted GIOBAGNARA to realize the custom-made home furnishings in leather or suede that he designed for private clients.

Very soon, the two built a rapport based on a shared sense of rigor, a quest for excellence down to the smallest detail and a taste for modern elegance expressed through sleek design, beautiful materials — and a mutual taste for audacity.

In 2017, their animated creative dialogue and a shared ambition to bring a new perspective to the market naturally led Giorgio Bagnara to entrust Stéphane Parmentier with the artistic direction of GIOBAGNARA. Since the beginning of this collaboration, Stéphane Parmentier has designed a wide number of new creations for the brand, from boxes, cases, desktop objects, storage units, change trays, trays, candle holders and vases to furniture and leather — or suede — trimmed lamps in a wide array of colours.

In blending tradition, aesthetic heritage and modernity, Stéphane Parmentier brings a graphic and sensual sensibility to a typically Italian art of living of which he is particularly fond.

**GIORGIO BAGNARA,
FOUNDER AND CEO
OF GIOBAGNARA**

Born into a family renowned for cultivating for three generations the art of living, Giorgio Bagnara became passionate about his calling at a very early age. In the late Nineties, after noticing that leather from the fashion industry was not considered enough as material for home accessories, he founded GIOBAGNARA with the goal of applying it to a complete collection. Along with his wife, Vanessa, he decided to move his design studios and workshops in the old docks of the Port of Genoa where, surrounded by the essence and beauty of that location, the company took a significant step forward.

GIOBAGNARA

A brand that is distinctive for elegantly designed creations that express luxury without ostentation, available in an uncommon and virtually limitless colour palette of leathers and suede, and crafted to the highest standards using both traditional know-how and leading-edge technology. This approach to tradition and modernity led Giorgio Bagnara to experiment: he constantly pushes technical limits in his quest for objects that are both beautiful and relevant, and in doing so relies on the skills of the company's craftspeople. Very quickly, GIOBAGNARA became renowned for its expertise, and its founder became a partner of choice for a large number of interior decorators and yacht and jet designers who called upon his know-how for special commissions. In 2015, Giorgio Bagnara expanded its leather portfolio with the acquisition of the saddle leather specialist Rabitti 1969. Today, nearly two decades after its founding, GIOBAGNARA has one of the most comprehensive offers of leather home accessories on the market and is preparing to open a fresh chapter in its history.

**STÉPHANE PARMENTIER
CREATIVE DIRECTOR
OF GIOBAGNARA**

The interior architect and designer Stéphane Parmentier began his career working for Karl Lagerfeld before deciding to devote himself to architecture full-time in 2002. Since then, he has created and developed numerous projects for an international clientele attuned to his style of luxurious simplicity. The homes and objects he designs reveal a vision that is deeply anchored in a modern everyday lifestyle. Inspired by classical Greco-Roman antiquity, the beauty of the Puglian landscape, the restraint of the Japanese aesthetic, and a desire to focus on the essential, he cultivates elegant asceticism by associating noble materials with subtly graphic lines.

LIPARI TABLE LAMPS

Lipari is a collection that aims to find harmony between opposites: the natural, delicate texture of the woven rattan shade on each lamp reveals a beautiful, soothing glow when lit, while the geometrical rigor of the sturdy metal base creates captivating strong contrasts, boasting an exceptional magnetic charm.

GLENN SESTIG

Glenn Sestig, born in 1968 in Ghent, Belgium, graduated from the Henri Van De Velde institute in Antwerp and in 1999 established a practice together with painter Bvardk. From the outset, their work focused on extreme precision, on a construction with such mastery of the architectural line, proportions and perspective that it is easy to forget the careful consideration that will have gone into their design and creation.

In addition to the material and its interpretation, transparency and the play of reflection suggest, rather than illustrate, the endeavors that have resulted in the real grandeur of some projects, primarily places for public use. Glenn Sestig Architects is synonymous with contemporary chic. His work can be seen as unrelentingly urban and contemporary - materials are exclusive and its combinations are renewing and unique.

To give his work coherence, the architect uses his own method of calculation, a sort of mental model from which flow the intelligence, equilibrium and soul of a place. Each completed work is considered as a minor work of art wherein art and fashion are essential sources of inspiration. The architecture is no longer a movement in time but becomes a declaration of a global luxurious lifestyle. With regular publications in renowned magazines and recognition in global architectural awards, Glenn Sestig has earned his place as one of the most noticeable architects out there. Early commissions included shops, nightclubs and penthouses in Ghent, Antwerp and Brussels, but over the last couple of years the projects grew in size ranging from villas to hotels. Thanks to some magnificent projects with great exposure Glenn Sestig received international recognition with projects from Los Angeles to Tokyo.

LLOYD COLLECTION

The cultural exchange between Flanders and the Republic of Genoa dates back to the 15th century when there were close ties between traders and bankers in the two countries. Flemish paintings and tapestries were avidly collected by the Genoese banking families.

At the beginning of the 17th century, Genoa rapidly became the financial centre of Europe and its patricians acted as a magnet for artists.

Peter Paul Rubens and Anthony van Dyck both visited the trading centre and immortalised its aristocracy in sumptuous portraits, influencing generations of artists. Moreover, Rubens copied the magnificent architecture of the Genoese palazzi in drawings he later published in book form.

In the furrow traced centuries ago, GIOBAGNARA commissioned Glenn Sestig architect to design a new range of products in which the craftsmen of Ligurian Coast and a Flemish Master meet again.

This is how Lloyd Collection was born.

The Belgian architect imagined this design as a blending of East and West, and therefore, it doesn't fit neatly into either lineage. As with all of his architecture, Sestig sees in this project the possibility of an interaction between elegance and substance. The resulting design is a decorative, hybrid creation where the succession of solid and void spaces breaks the monolithic vision.

Lloyd is a collection where natural elements such as dark-stained Canaletto walnut wood, travertine, cashmere and wool play a calm symphony of craftsmanship, serenity and aesthetics.

GIOBAGNARA

UPDATE
FEBRUARY 2021 — SEPTEMBER 2020

GIORGIO BAGNARA, FOUNDER AND CEO OF GIOBAGNARA

Born into a family renowned for cultivating for three generations the art of living, Giorgio Bagnara became passionate about his calling at a very early age. In the late Nineties, after noticing that leather from the fashion industry was not considered enough as material for home accessories, he founded GIOBAGNARA with the goal of applying it to a complete collection. Along with his wife, Vanessa, he decided to move his design studios and workshops in the old docks of the Port of Genoa where, surrounded by the essence and beauty of that location, the company took a significant step forward.

GIOBAGNARA

A brand that is distinctive for elegantly designed creations that express luxury without ostentation, available in an uncommon and virtually limitless color palette of leathers and suede, and crafted to the highest standards using both traditional know-how and leading-edge technology. This approach to tradition and modernity led Giorgio Bagnara to experiment: he constantly pushes technical limits in his quest for objects that are both beautiful and relevant, and in doing so relies on the skills of the company's craftspeople. Very quickly, GIOBAGNARA became renowned for its expertise, and its founder became a partner of choice for a large number of interior decorators and yacht and jet designers who called upon his know-how for special commissions. In 2015, Giorgio Bagnara expanded its leather portfolio with the acquisition of the saddle leather specialist Rabitti 1969. Today, nearly two decades after its founding, GIOBAGNARA has one of the most comprehensive offers of leather home accessories on the market and is preparing to open a fresh chapter in its history.

FRANCESCO BALZANO

Francesco Balzano was born and grew up in Paris, yet his visual culture is imprinted with the images of Venice, Florence, Rome and Capri – where he used to spend his summer holidays. He studied interior design and architecture, and then joined the famed studio of Joseph Dirand, working on prestigious projects. In 2018, he opened his own studio and started designing custom and limited editions of furniture pieces for art and design galleries all over the world, whilst continuing his work as interior architect for private clients.

Simplicity as a means to ultimate sophistication. The unparalleled mix of noble materials, pure lines and essential functions of everyday lifestyle. The singularity of each design conceived as a sort of monolithic, sculptural piece that stands the test of time. “My work is architectural and authentic; – says Francesco – it is a permanent tribute to the beauty of timeless things”.

OSSICLE COLLECTION

Ossicle is a collection that comprises monolithic seats, benches and tables crafted with a carefully selected range of leather and marble colors and finishes.

Their monumental volumes originate from both primal monolithic and contemporary minimal features entwined, while the lines are a reference to the "Jeu des Osselets", which has roots dating back to ancient Greece and Rome, reinterpreting it according to a modern visual and a sharp humour, creating the perfect balance between organic and pure geometric shapes.

In the late Nineties, after noticing that leather from the fashion industry was not considered enough as material for home accessories, he founded GIOBAGNARA with the goal of applying it to a complete collection. As time passed, he established numerous partnerships with names in the field of design, such as the one with Stéphane Parmentier, who was appointed as creative director of the GIOBAGNARA brands in 2017. Along with his wife, Vanessa, he decided to move his design studios and workshops in the old docks of the Port of Genoa where, surrounded by the essence and beauty of that location, the company took a significant step forward.

RABITTI1969

In 2015, GIOBAGNARA acquired the famous Italian saddle leather specialist RABITTI. Rudi Rabitti, who launched the company in Milan in 1969, was a pioneer: his was the first brand to offer a wide array of home accessories in this type of leather. He quickly won an international reputation. With RABITTI1969, GIOBAGNARA is expanding its offer, both by revisiting the house archives and creating new collections. Because saddle leather is thick and particularly sturdy, it needs no reinforcement and makes it possible to create objects entirely in leather.

HANDMADE IN ITALY

UPDATE
FEBRUARY 2021 — SEPTEMBER 2020

RUDI: Who, What, Where, When, Why and How?

In 1996, **Rudi Rabitti trademarked** in Milan **Tecnocuoio®**, a composite material, both **UV-resistant** and **water-resistant**, made from leather castoffs from its own production.

The company was well ahead of its time in adhering to a **zero-waste philosophy** that was both **eco-friendly** and **functional**.

While the company has focused on contract work, the acquisition of the brand in 2017 by Giobagnara resulted in the decision to create two separate brands: Rabitti 1969 for products made from genuine leather; and **RUDI** for items created from regenerated leather.

Giobagnara sees an opportunity to introduce **RUDI** products to a wider audience. With the creative direction of the Italian designer **Simone Fanciullacci**, since 2019, the company is pursuing a more decorative approach, able to explore new languages and enhance the properties of **Tecnocuoio®**. It is enlarging the number of product categories and expanding the number of aesthetic solutions for **interior design projects**, **high-end Ho.Re.Ca** and the **yacht interiors** market.

The objective of **RUDI** is to eliminate all leather waste and create beautiful objects from recycled materials that are perfect both for **indoors** and **outdoors**, able to generate an elegant yet casual atmosphere where simple lines play with complex patterns, looking for practical yet always original solutions.

RUDI can now be viewed as more than just a brand name. It is a **model of Italian ingenuity** where Giobagnara has brought together all of its know-how and creativity in an effort to raise ecological awareness.

A HANDMADE TRADITION

RUDI creations are **made entirely by hand** with the masterly skills of our craftsmen who, thanks to their experience, take care of everything down to the smallest detail to guarantee **durable** and **impeccable products**, all in accordance with the original tradition of Italian finest handmade leather goods combined with the use of cut-edge technology.

TECNOCUOIO®

Trademarked by the company in 1996, this innovative material is composed of **finely milled leather castoffs** tanned with vegetal extracts, natural latex (extract from the rubber tree) for bonding, natural fats, salts and natural coloring agents. After adding water, the mixture is pumped through a screen. After being dried, pressed and refined, one obtains a bonded leather fiber material via a process similar to that used in the production of paper. The result is a **high-quality regenerated leather** boasting elasticity that is both **UV-resistant** and **water-resistant**, and which features a perfectly smooth surface.

CANCUN BASKETS

The Cancun baskets are characterized by a weave that develops only through vertical dotted lines that, being cut diagonally, seem to chase one another on the surface, giving life to a design that reminds of the warm and a tad retro atmospheres of certain fabrics typical of Central America.

Finest regenerated reinforced leather structure with water-resistant and UV-resistant finish.
Ideal for laundry, towels, magazines or everyday objects.
Fit for both indoor and outdoor use.
Non-slip waterproof rubber base underneath.

It is possible to choose any color combination from our chart for the baskets' bicolor and tricolor versions.

LISBONA BASKETS

The Lisbona baskets' design comes from the variation of a classic weave with vertical and horizontal bands in which, however, the overlays are hidden so as to create a surface similar to a mosaic.

The surface that acts as a frame for the bands acquires importance and, from simple background, it becomes a decorative element able to enhance the weave and its design.

Finest regenerated reinforced leather structure with water-resistant and UV-resistant finish.

Ideal for laundry, towels, magazines or everyday objects.

Fit for both indoor and outdoor use. Non-slip waterproof rubber base underneath.

It is possible to choose any color combination from our chart for the baskets' bicolor and tricolor versions.

It is possible to provide products with an even more exclusive feeling requesting a debossed customization. Choose the stamps' sizes and to either apply or not a foil. Debossing foils feature a wide number of colors; the selection plays on endless associations and includes metallic finishes.

TECNOCUOIO®

Trademarked by the company in 1996, this innovative material is composed of 65% genuine leather castoffs tanned with vegetal extracts, 18% natural latex (extract from the rubber tree), 10% water, 5% natural fats and 2% natural coloring agents and salts. Rudi utilizes a production technique that adheres to a zero-waste philosophy that is eco-friendly and functional.

The result is a high quality regenerated leather boasting elasticity that is both UV-resistant and water-resistant and which features a perfectly smooth surface.
